REASONS FOR ALLOWANCE

1. claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

References Siwiak (4,578,628), Ghormley et al (4,068,095) and Shimamura (US 2002/0136557) are cited because they are pertinent to the claim invention.

Regarding to claim 1, none of the prior art of record teaches or suggests a portable terminal device having, in the upper part, a screen display section and, in the lower part, a key manipulation section having an array of a plurality of keys, comprising:

a first inner housing that is disposed in the inner space formed by the first and second outer housings and forms an inner wall of a battery compartment close to the first outer housing, a battery being slid into the battery compartment. through the bottom end of the battery compartment; a second inner housing that is disposed in the inner space formed by the first and second outer housings and forms an inner wall of the battery compartment

Art Unit: 2618

close to the second outer housing, the first and second inner housings having an inner opening for battery insertion/removal formed at the bottom end thereof; and a third outer housing serving as a lid for closing the outer and inner openings in an openable manner, wherein the key manipulation section is disposed on the second inner housing. It would not have been obvious for a person skilled in the art to combine Siwiak (4,578,628), Ghormley et al (4,068,095) and Shimamura (US 2002/0136557) with other prior art of record in order to arrive at the claimed invention.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
